

A Scene from "Anybody's Woman," a Paramount Picture

## Shown in the right light

HERE SHE IS! You've seen her a thousand times on the screen. Her demure little smile is warm and friendly. Midst elaborate scenery and dazzling surroundings, she never loses her piquant charm. National Photographic Carbons have given "light men" and photographers the chance to present her at her best, making her success theirs as well.

For medium and long shots, National White Flame Carbons have actinic carrying power identical with that of pure sunshine. Every graceful gesture is registered, is made an exciting pattern of light and shadow. Use them for sharp

moonlight effects, for brilliant, clear-cut contrasts, for scenes exacting in detail.

Stars have learned, "light men" and photographers have learned, that National Photographic Carbons are always dependable. Whether in the daily routine of studio work or for unusual scenes under the most exacting conditions, National Photographic Carbons will help you get your stars over.
